

# ***EASY RULES For REMOVAL Of TREES***

In 2009 the Board of Directors approved the following simple way to gain approval for tree removal. Your Village Representative has (on the spot) authority to approve the removal of the trees in the following circumstances.

- 1) **Trees on the side or between houses regardless of size.**
- 2) **Those at the back of the house not visible from any golf course.**
- 3) **Smaller than 10” in diameter at the back of the house, and is visible from a golf course.**

**If any of the above trees are within five feet (5') of a neighbor's side lot their Ok is also required, before the Village Representative may issue approval.**

All trees other than those described above need approval by the Architectural Review Committee for removal.

## ***NOTE ABOUT SIGNATURE TREES:***

***Signature trees are those on your Village streets. They may be close to or even on your own property. They are owned by the Village. They are not to be trimmed or removed except by appropriate communication with your Village Representative.***

***Being owned by the Village they are also their responsibility to maintain, or replace them as needed.***
